Grade - 80-84.9%

Projects

Sulekha NRI App
679 Days

Description: Led the development of the Sulekha NRI app, a platform aimed at catering to the needs of Non-Resident Indians (NRIs) for various services and solutions. Key Responsibilities and Achievements: Spearheaded the end-to-end development of the mobile application using React Native, ensuring seamless performance across iOS and Android platforms. Collaborated with cross-functional teams including designers, product managers, and backend developers to implement features such as service listings, user profiles, booking systems, and payment integration. Implemented responsive design principles and optimized app performance for a smooth user experience, resulting in a 30% increase in user engagement within the first quarter of launch. Conducted regular code reviews, performance optimizations, and bug fixes to maintain app stability and reliability. Integrated analytics tools to track user behavior, enabling data-driven decisions for feature enhancements and user retention strategies
